Hi Erin,

I'm trying to tie up some loose ends and I'm hoping that you may know where I can get a pdf of an enclosure that was submitted with the attached Bay Institute comment letter – I know it is from what seems like ages ago. The enclosure is described on page 8 of the comment letter as:

**For a discussion of the basis for this recommendation, see Bay Ins
Enclosure 1, "A salinity standard to protect Estuarine Habitat, Rare and
Endangered Species, Wildlife Habitat and other beneficial uses of the br
tidal marshes of Suisun Bay."**

Thanks,

John
